

# CybeReady: The Leader in Cybersecurity Awareness Training for Healthcare

CybeReady is the global leader in cybersecurity awareness training, using a Readiness-first approach to prepare healthcare organizations for real cyber-attacks. Our data-driven methodology ensures effective training programs without the need for dedicated IT resources.

## Tailored for Healthcare

Healthcare cybersecurity requires a specialized approach. CybeReady understands the strict restrictions and lengthy approval processes in this sector and we accommodate them seamlessly. During crises, we offer the flexibility to pause training, allowing healthcare providers to focus on patient care. Our infrequent campaigns prevent employee overwhelm, letting professionals concentrate on their critical work.

## Key Features

### 100% Workforce Training Every Month:

Ensure complete and continuous employee training.

### Increased Employee Resilience (8x):

Boost employee resilience against cyber threats.

### Reduction in High-risk Groups (4x):

Significantly reduce the number of high-risk employees.
