

"Your firm being hacked isn't a matter of if - it's a matter of when"

Build Your Employee Readiness and Protect Your Firm's Reputation

- **29%** of law firms suffered a security breach in 2020
- **36%** of law firms have had systems infected by malware
- **91%** of cyberattacks begin with a phishing email

Join legal firms and global enterprises in making effective security training a reality

"CybeReady enables us to run customized campaigns that fit our law firm's 'character' and the unique cyberattacks we are dealing with. This translates to an effective and easy way to train our workforce on a monthly basis."

Idan Sivan
CIO at Fischer, Behar, Chen, Well, Orion & Co.

"CybeReady is my top solution - since we switched to CybeReady's fully-managed service, the level of work and effort we need to put into the daily tasks has decreased significantly and we're very happy with the training results."

Giulio Aiè
IT Director & CISO at BDO Italia

Reduce Your Employees Risk with CybeReady

Don't let the sensitive data you possess become a cyberattack target - see what our solution can do for you in less than one hour a month.

Your employees are the main link in the defense chain - arm them with an engaging, ongoing security awareness program that is always up to date!

Build a top-notch automated security awareness program with a click of a button
